SUMMARY

Frontend-focused Software Engineer and UI/UX Engineer with around 1 year of internship experience in enterprise UI design, responsive frontend development, and full-stack web application delivery. Experienced in building admin dashboards, workflow-based interfaces, reusable UI components, REST API-integrated screens, and Figma-to-code implementations using modern frontend technologies. Combines product design thinking with clean engineering practices to deliver scalable, accessible, and user-friendly digital products.

PROFESSIONAL EXPERIENCE

UI/UX Engineer Intern | Onsys Technologies

Sep 2025 - Present

- Designed and implemented responsive web layouts, enterprise application screens, admin portals, and user-facing interfaces using Figma and modern frontend technologies.
- Designed and supported frontend implementation for a credit information management admin dashboard, including workflow forms, data tables, role-based screens, and administrative action flows.
- Created UI designs and frontend screens for an international migration services platform, focusing on responsive application workflows, document handling, and user-friendly service request interfaces.
- Translated high-fidelity Figma prototypes into developer-ready layouts and reusable frontend components, strengthening design-to-development handoff quality.
- Applied user research, wireframing, information architecture, and usability principles to reduce friction across complex enterprise workflows.
- Improved interface consistency by applying design system principles, reusable UI patterns, and responsive layout standards.

Software Engineer Intern | Oxzon AI

Jun 2025 - Aug 2025

- Engineered full-stack web applications, including an Employee Management System and Blog Platform, with CRUD operations, authentication, and admin functionality.
- Built authentication flows including login, signup, protected access patterns, and frontend form handling for real-world development workflows.
- Integrated Node.js, Express.js, and MongoDB backend features with RESTful APIs and responsive frontend screens.
- Enhanced client-based project interfaces through frontend analysis, debugging, and performance-focused UI improvements.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, JavaScript, TypeScript, HTML, CSS, Tailwind CSS, responsive design
- **UI Libraries:** Material UI, Ant Design, Component-based UI development
- **Backend and APIs:** Node.js, Express.js, MongoDB, REST APIs, authentication, CRUD operations
- **UI/UX Design:** Figma, Wire framing, High-fidelity prototyping, User flows, Usability testing, Information architecture, Design systems
- **Tools:** Git, GitHub, VS Code, Postman, Canva, AI-assisted development tools

PROJECTS

TryFit - AI-Powered Virtual Dressing Room

Technologies: MERN, Firebase, MediaPipe Pose, OpenCV

- Built a real-time virtual try-on system with clothing visualization, body measurement analysis, and custom tailoring support.
- Created a complete shopping workflow covering product catalog, wishlist, cart, checkout, authentication, order processing, and admin product management.
- Architected RESTful APIs and backend infrastructure for product, user, and order management with dynamic frontend data integration.
- Mapped responsive user flows for virtual fitting, e-commerce browsing, secure checkout, and product administration.

E-Commerce Web Application

Technologies: React.js, Node.js, Express.js, MongoDB

- Implemented a full-stack e-commerce application with product browsing, authentication, shopping cart functionality, and backend API integration.
- Produced reusable UI components and responsive frontend screens to support a smoother user shopping experience across devices.

PlantPal - AI Plant Care App

- Led end-to-end UX research using interviews, surveys, and competitive analysis for an AI plant care mobile application.
- Generated user personas, empathy maps, journey maps, and behavioral insights to identify pain points and guide feature decisions.

EDUCATION

Bachelor of Science in Computer Science

Jun 2022 - Jun 2025

Trincomalee Campus, Eastern University, Sri Lanka

Current GPA: 3.6 / 4.0

CERTIFICATIONS

- Frontend Developer (React) - **HackerRank**
- Complete Web & Mobile Designer: UI/UX, Figma, +more - **Udemy**
- Generative AI - **LinkedIn Learning**
- Getting Started with Full Stack Java Development - **Simplilearn**
